

HIA Training Scholarships

Apply now to save potentially thousands of dollars

HIA is committed to finding and supporting the needs of the current and future generations of skilled tradespeople to develop their skills for a bright future.

HIA Build Your Future program with the support of JELD-WEN, as well as other industry partners, aims to encourage young people to improve their future career prospects in the industry. The program will provide assistance and guidance in their transition from completion of a trade qualification, towards a successful career in the building industry.

HIA Build Your Future has introduced HIA Training Scholarships to help young

people achieve their training goals, reach their full potential, and meet their professional development objectives.

HIA will award full and partial training scholarships across Australia to an aggregate value of \$200,000. Individual scholarships may range up to \$6,500 per scholarship, to help offset the cost of HIA training fees.

HIA NEEDS YOUR SUPPORT

If you know of or have an apprentice, employee or contractor in the building industry, in the age group 25 years of age or younger, encourage them to take up this great opportunity to increase their training qualifications and business skills – get ahead of the others, and save potentially thousands of dollars.

Be quick, as nominations close 30 November 2010.
